The layout at Dragonfly Golf Links features a blend of design styles guided by the varied landscape. The result is a natural looking golf course with two nines that blend nicely but are slightly varied in look. The back nine is laid out as a target golf style course, whereas the front nine is a links style course. The fully irrigated fairways stroll beautifully through a hundred and seventy acres of diverse and dramatic rolling terrain that includes dense forest, turquoise ponds and exposed rock faces. A close look from each tee deck reveals a golf course where the surroundings are spectacular and the views are equally so. Come Play Ottawa Valley's best kept secret... Come play Dragonfly Golf Links!
